Executive summary

According to the Grant Agreement part of the dissemination activities of the ADDPRIV project will be carried out through a continually updated website. Basically it will give an overview about the project and will provide press material and publications.

The website is reachable through the URL:

www.addpriv.eu

The website is online since 25/02/2011.

The website will be promoted through links in the other partners webpages as well as from the Cordis website.

Content of the website

Pages of the Web Site

On the upper side of every page there is a navigation bar which allows the access to each of the seven section of the web site. Just below the navigation bar there is a graphic animation with images that are representative of the smart video surveillance. In the main space there is the main web page section with the text content provided to the final users.

At the end of the page there is a footer with the logo of the project consortium members.

The website contains the following content pages:

- **Home:** a brief review of the last news about the project (dissemination activities)
- **The Project:** An introduction to the ADDPRIV project with general information, main goals, current situation, future needs and project output
- **Consortium:** A brief summary of the project partners with links to their webpages
- **Structure:** A description of ADDPRIV Workpackages
- **News:** A recollection of the ADDPRIV dissemination activities
- **Contact:** Contact information for the project
- **Members:** direct access to the project private website

Website overview

The Project Structure

News

The screenshot shows the 'News' section of the ADDPRIV website. At the top, there is a navigation menu with links for HOME, THE PROJECT, CONSORTIUM, STRUCTURE, NEWS, CONTACT, and MEMBERS. Below the menu is a grid of 12 security camera feeds from various locations, including entrances, elevators, and corridors. The main content area features two news items:

- 14 Mar** - The Association of Science and Technology Parks of Spain presented the ADDPRIV project.
- 24 Feb** - Successful kickoff meeting of the ADDPRIV Project "Automatic Data relevancy Discrimination for a PRIVacy-sensitive video surveillance".

On the right side, there is a 'More news' section with a list of links: Home, The project, Consortium, Structure, News, Contact, and Members.

Contact

The screenshot shows the 'Contact' page of the ADDPRIV website. It features a navigation menu at the top and a large image of three security cameras. The main content area includes the following contact information:
